A Thousand Men Walk Out.

Special to THE ASTORIAN.]
SAN FRANCISCO, March 3.—One of the most important strikes that ever occurred in this city was inaugurated today by about 1,000 iron moulder and iron workers walking out from twelve of the most prominent foundries of this city comprising the foundry men's association. The trouble arose over an alleged violation of rules of the association men and the union pertaining to wages of apprentices, hours of employment and the employment of non-union men. The fight will be a determined one and it is believed will result in the destruction of the foundry men's association or the iron moulder's union.

Special to THE ASTORIAN.]
SAN CARLOS, N. M., March 3.—Ran-gado Apaches are making themselves known as the winter disappears. Of eleven ranches, five or six are in Sonora, Mexico, and on one late raid stole 16 horses, besides committing numerous other depredations. Many believe an Apache war is imminent.

He Stole Money and Flirted With the Girls.

Special to THE ASTORIAN.]
SPOKANE FALLS, March 3.—Three years ago, Prof. A. E. Lasher, came to this city from Napa, California, to take the presidency of the Spokane college. For about two weeks a sensation has been brewing in the college, which is the leading educational institution in Washington, which ended

to-day in the trustees demanding the resignation of Lasher. He is said to be a good teacher, but his musical ability is poor. He had full charge of the college, including the boarding department of both the young ladies and the boys. He always made it a practice to collect in advance from the scholars, but what he did with the money is a mystery. The faculty are clamoring for their salaries and pupils for more to eat. The trustees have tried to get an accounting from Lasher but thus far have been unable. The books have been turned over to them but they are in such shape that nothing can be made out of them. Lasher in addition to running behind in his accounts, has made himself very obnoxious to the scholars, especially to the young ladies. His removal was brought about by a delegation of scholars waiting upon the trustees and demanding it. Lasher will sever his connection with the college, and about three weeks to be succeeded by D. E. Adams of Bloomington, Ills.

PORTLAND TELEGRAPHIC LETTER

4,500 Men Reducing the Southern Pacific Blockade.

EMBEZZLER ROBERTS ARRIVES.

Special to THE ASTORIAN.]
PORTLAND, March 3.—Manager Richard Koehler of the Southern Pacific Railroad company returned this morning from the seat of war in Southern Oregon. Koehler said: "We have made great progress on the temporary new line from a point where the track was submerged to the slide, around which a good road has been built. We are now commencing to put in a trestle work and bridge across the end of the lake. The working force is being increased every day and in a few days more our entire operating force will number 4,500 men. The pile driving outfit with pontoon barges, has just been received from San Francisco, to assist in the bridge work. Camps for graders, not the entire vicinity, the whole line is covered with men. The Portland division has moved ahead to Union creek about five and a half miles from West Fork, where we will have two camps. We hope to be able to reach West Fork by Sunday night, provided the weather does not become furiously inclement so as to stop the work. As soon as that point is reached our forces will work toward the forest from the other division slides at the forks, about 1 1/2 miles in extent. I have just received a dispatch from San Francisco which states that the California force has not yet reached 9, and that trains will hereafter run on regular schedule time between San Francisco and Glendale. From Portland our trains will run south as far as Riddle. Between that place and Glendale we stage line over the old mail route, by way of Canyonville, has been established, but it will be a great hardship for ladies and those who are disinclined to put up with many inconveniences incident thereto. An effort is being made to secure connection by rail, but it is probable the solution of this depends wholly upon weather."

The Long Looked for Arrival of W. C. Roberts.

Special to THE ASTORIAN.]
PORTLAND, March 3.—The long looked for arrival of W. C. Roberts, late cashier for the commission firm of Wm. Dunbar & Co., the alleged embezzler of a large sum, is realized. He and his son, J. A. Roberts, a young man, 25 years of age, were brought here by sheriff Birdseye, of Jacksonville. The cashier's missing book was not found among his effects. Wm. Dunbar claims that the amount taken from the firm will reach \$100,000. In Roberts' trunk \$1,200 cash was found, and a receipt for \$300 for lawyer's fees rendered shortly after his arrest. It is thought his son is implicated in the affair.

The resolution was referred to the committee on finance.

Senator Vorhees Interviewed.

WASHINGTON, March 3.—Senator Vorhees said to-day to an agent of the California Associated Press: "I offered this resolution without stating therein any of the facts in the case, as they came to me simply because I desired the finance committee to investigate the matter and while I felt perfectly satisfied that the investigation would do no harm and that I should be perfectly right in offering the resolution, I do not consider it necessary to rehearse the charges made in the resolution. These matters I felt should be brought forward by the committee responsible for the charges. I offered this resolution, based on section 1,363, revised statutes, as follows: 'When the lease heretofore made by the secretary of the treasury to the Alaska Commercial company of a right to engage in taking fur seals on the islands of St. Paul and St. George pursuant to the act of July 1, 1870, chapter 189, or when any future, similar lease expires, or is surrendered or forfeited, the secretary shall lease to the proper and responsible parties for the best advantage of the United States, having due regard to the interests of the government, the nature of the inhabitants, their comfort, maintenance and education as well as to the interests of parties heretofore engaged in the trade and protection of fisheries, the right of taking fur seals on the islands herein named and of sending a vessel or vessels to the islands for skins of such seals for a term of twenty years, at an annual rental of not less than \$50,000 to be reserved in such lease, insured by deposit of U. S. bonds to that amount, and every such lease shall be duly executed in duplicate and shall not be transferable.'"

136 SURVIVORS OF THE QUETTA.

Special to THE CALIFORNIA ASSOCIATED PRESS.
The Grand Old Man Speaks.
LONDON, March 3.—In the house of commons to-day H. Smith moved that the house accept the report of the special commission on the charges against the Irish members and thank the judges, and also have the report entered upon the journal. Gladstone, who was received with cheers at his first appearance since his illness, opposed the motion. He took the ground that it was unprecedented to ask the judges to do judicial duty. The report bristled with disputable matter, and it was unreasonable to ask the members to accept it entire. He concluded with a sweeping survey of the field and masterly defense of Farnell.
